DOLOMITI SUPERSUMMER
THE BIRTHPLACE OF WOW
DOLOMITI SUPERSUMMER CARD
THE KEY TO A UNIQUE WORLD

One card is all you need to immerse yourself in some of the world’s most beautiful mountains. The UNESCO World Heritage Dolomites frame your adventures, to be experienced in total freedom, with a breeze in your face and the sun shining down on you.

In 12 valleys, more than 100 latest-generation lifts sweep you to 3,000 km² of unspoiled nature. You’ll have 8 natural parks to explore, with 700 hikes. Mountain bikers will find over 400 km of tracks with more than 24,000 meters of vertical drop.

Exhilarating experiences you’ll never forget!

A GLORIOUS VACATION

In summer, the Dolomites transform into an idyll for outdoor activities: strolls, bike tours, walks, climbs, lodge-to-lodge hikes and paragliding.

With the SuperSummer Card giving you access to more than 100 lifts, you’ll enjoy an amazing adventure while sharing unforgettable moments with friends and family.
DOLOMITI SUPERSUMMER
OUTDOOR ADVENTURES

SUPERSUMMER CARD

One card gives you access to over 100 lifts in the 12 valleys of the Dolomiti SuperSummer area.

Types of Cards:
- The Points Value Card (transferable) is best for families and hiking groups, offering savings off the single lift facilities: 20% uphill and 35% return.
- The Period Card (day or multi-day bike transport included) is ideal for mountain bikers, multi-day visitors and hikers who use more than one lift a day.
- The Season Card for unlimited fun throughout the whole summer.

DOLOMITI SUPERSUMMER is divided into two categories:
- Dolomiti Hike Galaxy
- Dolomiti Bike Galaxy

Dolomiti SuperSummer Card: your passport to adventure!

DOLOMITI BIKE GALAXY
PURE ADRENALINE

BIKE PARKS AND TRAILS

Suitable for beginners and experts alike but one thing is guaranteed: you’ll have the time of your life!

Perform jumps, zip between the parabolic curves, and ride the bridges of the fabulous bike parks.

ENDURO TRAILS

These downhill and uphill trails follow natural and created paths. Some may be reached via lifts; others require leg strength to get there.

PANORAMIC TRAILS AND FLOWS

These trails are less-demanding routes, with moderate grades. Mainly flat, with adherent terrain. Suitable for anyone who loves nature and wants to enjoy MTB or e-bike descents.

FREERIDE / DOWNHILL

These trails are technically difficult and fast downhill tracks, only for very experienced riders. Perfect for bikers seeking a true adrenalin rush.

TRAIL MAP AND GUIDES

The Dolomiti Bike Galaxy interactive map helps you to choose your favorite area, type of route and level of difficulty, guaranteeing an unforgettable experience.

Every ride with a local MTB guide is an unparalleled adventure. You’ll get technical tips and local information, to ensure your experience is just as safe as it is fun.

Electric has gone Audi.

To continue to innovate, we never stop pushing ourselves. That’s why, with the quattro all-wheel drive we combined all the intelligence of technology with breathtaking and perfectly sustainable performance. This is how Audi e-tron came to be, the first all-electric Audi: all the thrills of safe and sporty driving in perfect harmony with the environment. audi.it

Audi e-tron range. Combined test cycle consumption (WLTP): 26.6 - 21.7 kWh/100 km; combined test cycle range (WLTP): 446 - 276 km; combined test cycle CO₂ emissions: 0 g/km. The indicative fuel consumption and CO₂ emissions values are measured by the manufacturer on the basis of the WLTP homologation method (Regulation EU no. 2017/1151 including subsequent amendments and additions). Any additional option packages, driving style and other non-technical factors, may change these values. For further information about the above values, please ask at an Audi Dealer and visit the website audi.it
